## About Broadway House

 78 bed, non-profit residential care facility for adults living with AIDS

 Only facility exclusively caring for HIV + individuals in the state of NJ

 Focus is on caring for the “whole” person; mind, body and spirit. Services include medical, social, psychological and pastoral.

 24 hour staff of dedicated and caring professionals and volunteers

 Dietary department prepares delicious meals that meet individual dietary needs and preferences

 Daily activities and trips designed to increase socialization, enhance emotional security, and enforce feelings of success, skill, and achievement

 More than a house... a “home”

## AIDS in New Jersey

- New Jersey has the 4th highest rate of HIV among adults and the 2nd highest among children
- More than 22,000 children have lost at least one parent to AIDS
- 70% of all newborn HIV cases in NJ result from a parent who had shared an HIV contaminated needle
- In mid 2008, 35,309 people were reported living with AIDS in NJ
- AIDS is a chronic ambulatory disease that changes lives ... but with medication advancements people can live longer. There is no cure for AIDS.
- The fastest growing population of people living with AIDS are people over 50.

Aids doesn't discriminate  
Anyone can contract the virus
